Gates High School

Dear Student Body

Well, I promised to keep all of you peasants at the old school informed of the where-a-bouts and happenings of the class of 1956.

I will start off with Lois Evans. Lois now owns one of the biggest western dance halls in the U. S. It all started when she bought the Aumsville Pravillion. From then on she did nothing but buy dance halls, with western bands.

Next comes May Haywood. May has spent her recent years in retirement after a long, hard business career. She started out when she left school as a typist in a large firm, and from there she went on up the ladder until she owned her own business.

Rex Herron is the next one on my list. Rex has done very well in his dare-devil business. It seems that he will do anything if the price is right. It wasn't very long ago when I read in the paper about his staying in a house while they exploded an atomic bomb nearby. This, of course, brought him lots of money: well, enough to pay his hospital bills anyway.

Then comes David Moore. Dave has done very well in his Navy career. He is now Commander-in chief of all the navies of the world. Dave is planning to have his yacht remodeled. His yacht is the old battleship Missouri, which the Navy gave him for his bravery.

We can't forget Royal Schaer. Royal now owns one of the biggest cattle ranches in the world. He started out with only 40 acres and now he owns all of Texas. He is dickering the U. S. Government about a loan. They, the government want to borrow enough money to pay off the national debt.

Now I will tell you what I have been doing. I now own the largest mortuary in the United States. It covers all of 40 acres. I have been working hard trying to buy out General Motors so I won't have to pay so much for my hearses. Well, I have a few customers to get back to, so I will close for now.

Sincerely yours

David Vail
